

Contents Volume 13

No. 1

G.B. Slimane, F. Houllier, G. Tucker and J.P. Thiery
 (Nogent / Marne, France)

In vitro migration of avian hemopoietic cells to the thymus: preliminary characterization of a chemotactic mechanism 1

Martelly, A. Molla, M. Thomasset and A. Le Moigne
 (Créteil, Montpellier, and Le Vésinet, France)

Planarian regeneration: in vivo and in vitro effects of calcium and calmodulin on DNA synthesis 25

M. D'Agostino, L. Monaco, M. Conti and R. Geremia
 (Rome, Italy)

Calmodulin in mouse male germ cells: a qualitative and quantitative study 35

Y. Iwakura, P. McCormick, K. Artzt and D. Bennett
 (New York, NY, U.S.A.)

A class of large polysaccharides contains the antigenic determinants for the cytotoxic antibodies in a conventional syngeneic anti-F9 serum as well as a monoclonal antibody prepared against F9 cells 41

M. Galdieri and L. Monaco (Rome, Italy)

Evidence of protein secretion by cultured pachytene spermatocytes 49

M. Todorova, B. Anachkova and G. Russev (Sofia, Bulgaria)

Comparative study of the tightly bound nonhistone chromosomal proteins of rat liver and Ehrlich ascites tumour cells 57

D. Wilson (London, England)

The origin of the endothelium in the developing marginal vein of the chick wing-bud 63

C.M. West, J. Simon and L. Hicks (Gainesville, FL, U.S.A.)

A temperature-dependent block in spore differentiation is transduced intercellularly by *Dictyostelium discoideum* 69

J. Wittman and H. Pruy (München, F.R.G.)

Activation of xanthine dehydrogenase during the prenatal period through L-thyroxine, thiourea and cycloheximide 77

Contents of "Development, Growth & Differentiation"

Vol. 25, Nos. 3 and 4 85

No. 2

V.S. Mikhailov, A.A. Kostomarov, D.B. Gulyamov and E.F. Knyazeva (Moscow, U.S.S.R.)

Compartmentalization of DNA polymerases, α and

γ , in maturing oocytes of the loach (*Misgurnus fossilis* L.) 87

R.A. McCarthy and M. Spiegel (Hanover, NH, U.S.A.)

Protein composition of the hyaline layer of sea urchin embryos and reaggregating cells 93

R.A. McCarthy and M. Spiegel (Hanover, NH, U.S.A.)

The enhancement of reaggregation of sea urchin blastula cells by exogenous proteins 103

Y.W. Kunz and S. Ennis (Dublin, Ireland)

Ultrastructural diurnal changes of the retinal photoreceptors in the embryo of a viviparous teleost (*Poecilia reticulata* P.) 115

M.-A. Ripoché and C.A. Cudennec (Nogent / Marne, France)

Adult hemoglobins are synthesized in yolk sac microenvironment obtained from murine cultured blastocytes 125

I. Ophir, A.A. Moscona and Y. Ben-Shaul (Tel Aviv, Israel and Chicago, IL, U.S.A.)

Localization of retina cognin in embryonic neural retina tissue by immuno-scanning electron microscopy 133

J. Hermann, R. Bellé, J. Tso and R. Ozon (Paris, France)

Stabilization of the maturation promoting factor (MPF) from *Xenopus laevis* oocytes. Protection against calcium ions 143

S.S. Sánchez, M.O. Cabada and F.D. Barbieri (San Miguel de Tucumán, Argentina)

Newly synthesized extracellular ribonucleic acids in the amphibian gastrula 149

Y. Ben-Shaul, K. Artzt and D. Bennett (Tel Aviv, Israel and New York, NY, U.S.A.)

Immunoscanning electron microscopy of antigenic determinants of T/t-complex (t^{w18}) mouse embryos 159

L.V. Ryabova (Moscow, U.S.S.R.)

The cytotstatic effect of the cytoplasm of mature, non-activated and cleaving eggs of *Rana temporaria*, *Acipenser stellatus* and *Xenopus laevis* 171

No. 3

T.S. Okada (Kyoto, Japan)

Recent progress in studies of the transdifferentiation of eye tissue in vitro (Review) 177

L. Simonneau, B. Herve, E. Jacquemin and Y. Courtois (Paris, France)

State of differentiation of bovine epithelial lens cells in vitro. Relationship between the variation of the cell shape and the synthesis of crystallins 185

G. Schweizer, C. Ayer-Le Lièvre and N.M. Le Douarin
(Nogent sur Marne, France)

Restrictions of developmental capacities in the dorsal root ganglia during the course of development

191

V. Vaillant, D. Buffard and R. Esnault (Paris, France)

Changes in the polyadenylated messenger RNA population during differentiation of *Vicia faba* root cells

201

A. Grover and K.V. Rao (Delhi, India)

Sorting out in heterotypic cell aggregates is regulated by differences in the cell surface charge

209

D. Ostrousky, C.M. Cheney, A.W. Seitz and J.W. Lash
(Millersville, PA, Baltimore, MD, New York, NY and Philadelphia, PA, U.S.A.)

Fibronectin distribution during somitogenesis in the chick embryo

217

Z. Kilianska, W.N. Schmidt and L.S. Hnilica (Nashville, TN, U.S.A.)

Antibodies to dehistonized chromatin of normal and fetal rat liver

225

H.E. Perry and D.A. Melton (Cambridge, MA, U.S.A.)

A rapid increase in acetylcholinesterase mRNA during ascidian embryogenesis as demonstrated by microinjection into *Xenopus laevis* oocytes

233

N. Watanabe and H. Shimada (Tokyo, Japan)

Effect of emetine on initiation of DNA synthesis in embryonic cells of sea urchin

239

K. Shiokawa, K. Tashiro, T. Oka and K. Yamana
(Fukuoka, Japan)

Contribution of maternal mRNA for maintenance of Ca^{2+} -dependent reaggregating activity in dissociated cells of *Xenopus laevis* embryos

247

I. Peräsalo and S. Nordling (Helsinki, Finland)

Changes in the electrophoretic mobility of cells from chick blastoderms during early development

257

Contents of "Development, Growth & Differentiation"

Vol. 25, Nos. 5 and 6

263

Erratum

265

No. 4

M. Fontès, J. Coulon, M.-H. Delgrossi and Y. Thouveny
(Marseille, France)

Muscle dedifferentiation and contractile protein synthesis during post-traumatic regeneration by *Owenia fusiformis* (polychaete annelid)

267

M. Takigawa, K. Fukuo, T. Takano and F. Suzuki (Osaka, Japan)

Restoration by parathyroid hormone and dibutyl cyclic AMP of expression of the differentiated phenotype of chondrocytes inhibited by a tumor promoter, 12-O-tetradecanoylphorbol-13-acetate

283

C. Aimar, C. Vilain and M. Delarue (Paris, France)

Regulation of cell cycle by cytoplasmic components in the amphibian eggs

293

N. Neave, A. Sobolewski and G. Weeks (Vancouver, British Columbia, Canada)

The effect of ammonia on stalk cell formation in submerged monolayers of *Dictyostelium discoideum*

301

J. Riso (Berlin, F.R.G.)

Morphology of epithelio-mesenchymal interaction during lung development of the mouse

309

M. Ernst, H. Eppenberger and T. Doetschman (Zürich, Switzerland)

Initial appearance of myomesin in differentiating muscle cells

319

P.H. Frémont, C. Fournier le Ray and G.H. le Douarin
(Nantes, France)

In vitro differentiation in the absence of nerve of avian myoblasts derived from slow and fast muscle rudiments

325

T.P. Anastasiades and P. Starkey (Kingston, Ontario, Canada)

Incorporation of radioactive precursors into glycosaminoglycans by rat muscle fibroblasts exposed to a solubilized rat bone matrix fraction

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted, in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without the prior permission of the copyright owner.

Submission to this journal of a paper entails the author's irrevocable and exclusive authorization of the publisher to collect any sums or considerations for copying or reproduction payable by third parties (as mentioned in article 17 paragraph 2 of the Dutch Copyright Act of 1912 and in the Royal Decree of June 20, 1974 (S. 351) pursuant to article 16b of the Dutch Copyright Act of 1912) and/or to act in or out of Court in connection therewith.

Special regulations for readers in the U.S.A. This journal has been registered with the Copyright Clearance Center, Inc. Consent is given for copying of articles for personal or internal use, or for the personal use of specific clients. This consent is given on the condition that the copier pays through the Center the per-copy fee stated in the code on the first page of each article for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. The appropriate fee should be forwarded with a copy of the first page of the article to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, U.S.A. If no code appears in an article, the author has not given broad consent to copy and permission to copy must be obtained directly from the author. All articles published prior to 1980 may be copied for a per-copy fee of US \$2.25, also payable through the Center. This consent does not extend to other kinds of copying, such as for general distribution, resale, advertising and promotion purposes, or for creating new collective works. Special written permission must be obtained from the publisher for such copying.

Special regulations for authors. Upon acceptance of an article by the journal, the author(s) will be asked to transfer copyright of the article to the publisher. This transfer will ensure the widest possible dissemination of information.
